

## **ASQUITH HOUSING AUTHORITY**

---

Asquith Housing Authority is intended for low to moderate-income seniors (55+). Under the Provincial Social Housing Program, tenants are provided with rent geared to their household income.

You are eligible for the social housing benefit if:

- Your household income and assets are below the limits established by Saskatchewan Housing Corporation (SHC) from time to time.
- Your household fits with the type of housing we have available in our community
- You have good rental references from landlords
- You are not in Canada on a student visa or as a visitor.

If your application for the Social Housing Program is approved, the housing authority will review your housing circumstances and assess your level of need for housing. When a unit is available, the housing authority selects the household with the greatest housing need.

If your application for the Social Housing Program is approved but no housing unit is available immediately, you may need to provide additional information to confirm you are still eligible for the program when a unit becomes available.

If you are offered a housing unit, you will need to provide a security deposit.

Applications may be picked up at the Asquith Town Office or the Asquith Post Office or by calling the manager, Crystal Haugrud at 306-329-4781 for more information.
